

Amazon Signage

Amazon Signage Display technical reference sheet

- All-in-one signage display: Screen and integrated system-on-a-chip (SoC) media player in one. No separate player to source or power, no HDMI cable to run.
- Purpose built, not a TV: No app store, no launcher, no entertainment apps. Boots straight into your CMS in kiosk mode.
- Easy setup: Set up in minutes with the free Amazon Signage app. No tech skills needed.
- Works with your CMS: Compatible with 80+ content management systems. (separate CMS subscription may be required).
- Manage everything in one place: One portal and one mobile app for your Signage Displays and Signage Sticks. Create profiles, organize by location, and monitor in real time.
- Built to connect: Built-in Ethernet and Wi-Fi 6, plus Miracast support.
- Secure by design: Secure boot, encrypted storage, and regular updates keep your signage protected.
- Support when you need it: Get help in the mobile app with the Amazon Signage Assistant, or contact signage-support@amazon.com for advanced issues, Monday–Friday, 9 AM–5 PM PT.
